

### Supplemental Letter for FY 2015 Annual HUB Report For Agency Number 716

The Texas A&M Engineering Extension Service (TEEX) is an internationally recognized leader in the delivery of emergency response, homeland security and workforce training, exercises, technical assistance, and economic development. TEEX offers on-site customized training and services to businesses and industries, municipalities and public agencies across the globe. TEEX is committed to encouraging and promoting the use of Historically Underutilized Businesses (HUBs) in all procurement opportunities. TEEX spent over \$92,200 with HUB vendors even though the purchases are in non-reportable expenditure codes. As a training agency, there are many occasions the agency must expend funds for unique and proprietary equipment for which there are no HUB sources. However, the agency's continued good faith efforts demonstrate its dedication to advocating and supporting the HUB program. The agency director and executive staff are provided monthly agency HUB activity reports. The agency conducts bimonthly HUB Committee meetings which provide input, leadership and oversight for the HUB program. The HUB Coordinator assists TEEX divisions in identifying and locating HUB vendors for all procurement opportunities. TEEX continues to emphasize, promote and validate its commitment to the HUB program by being active in the following during the period of September 1, 2014 - August 31, 2015:
