

Application for Appraised Value Limitation on Qualified Property

(Tax Code, Chapter 313, Subchapter B or C)

Form 50-296
(Revised May 2010)

INSTRUCTIONS: This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application.

This notice must include:

- the date on which the school district received the application;
 - the date the school district determined that the application was complete;
 - the date the school board decided to consider the application; and
 - a request that the comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
 - must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
 - forward the original completed application to the Comptroller in a three-ring binder with tabs separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its Web site. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules as explained in the Confidentiality Notice below.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, make a recommendation to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to complete the recommendation, economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's Web site to find out more about the program at <http://www.window.state.tx.us/taxinfo/proptax/hb1200/index.html>. There are links on this Web page to the Chapter 313 statute, rules and forms. Information about minimum limitation values for particular districts and wage standards may also be found at that site.

Project Description

Pandora recently purchased the Eastman Chemical Methanol and Ammonia manufacturing plant in the extraterritorial jurisdiction of Beaumont, Texas. This plant has been shut down since 2004. The Company plans to refurbish the plant and produce methanol and ammonia out of the facility, with ammonia production and methanol production beginning in 2012. It is currently anticipated that an initial investment of approximately \$165 million will be required to commence initial operations at the plant. It is also anticipated that the company will upgrade existing technology at the facility within three years by investing another \$100 million. One factor in determining whether the project will proceed is the internal competition for capital among the various project opportunities for the Company's partners, both nationally and globally. Since this factor is financial in nature, Pandora is seeking assistance in the way of incentives to help ensure that the project advances.

Once refurbished and operating, the facility will employ 80 permanent workers to operate the facility, most of which are retained jobs from within the Company.

Ability to Relocate

One factor in determining whether the project will proceed in the internal competition for capital among the various project opportunities for the Company's partners, both nationally and globally. Since this factor is financial in nature, Pandora is seeking assistance in the way of incentives to help ensure that the project advances. The Company allocates capital investment to projects and locations that create the best economic return. The existence of a limitation on tax value is a significant factor in calculating the economic return and allocation of reserves to the project. However, the Company could redirect its expenditures.

Economic Incentives

Pandora is pursuing property tax abatement agreements with the City of Beaumont and Jefferson County.

Investment**

- 1. A specific and detailed description of the qualified investment you propose to make on the property for which you are requesting an appraised value limitation as defined by Texas Tax Code Sec. 313.021.**

The Company will build at the vacant Eastman Chemical Methanol and Ammonia facility, with an expected cost of \$174 million. In year three, the Company expects to invest an additional \$58 million in machinery and equipment as a second phase of the project.

- 2. A specific and description of any new buildings, proposed improvements or personal property which you intend to include as part of your minimum, qualified investment.**

Pandora is investing approximately \$174 million in the refurbishment of an ammonia and methanol production facility. The refurbishment includes reformer work (\$13.5 million), engineering (\$5.8 million), significant investment to restore the ammonia production facility (\$46 million) and the methanol production facility (\$99 million), and other production-related investments (\$10 million).

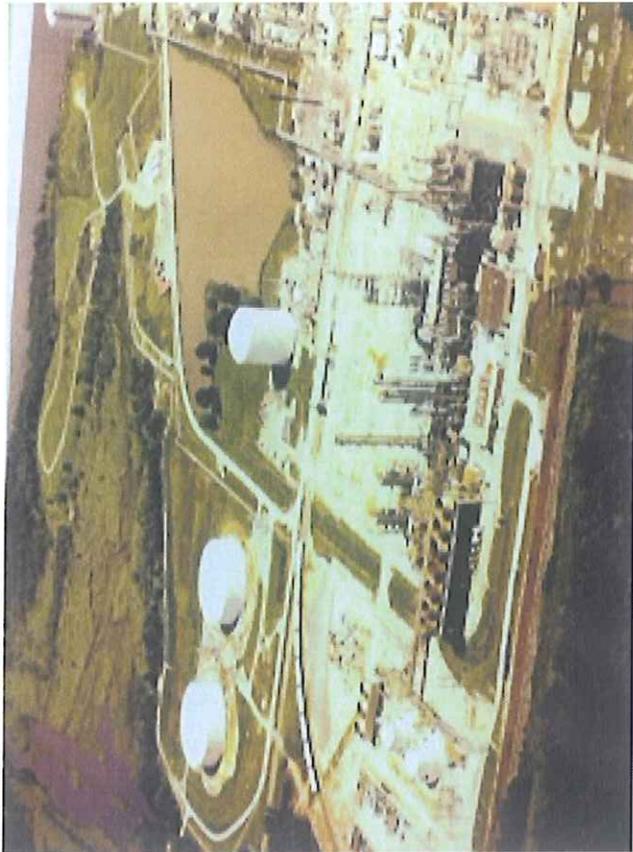

In addition, investment in a catalytic reduction unit and related equipment will total approximately \$58 million. Pandora's total investment will be approximately \$232 million.

JEFFERSON COUNTY UNIFORM TAX ABATEMENT POLICY-2009

ADMONITORY PROVISIONS

The final determination of value to be abated is vested with the Jefferson County Appraisal District (JCAD), an agency autonomous from Jefferson County. The Procedures used by JCAD are attached as Exhibit "A" and incorporated and adopted in this Abatement Policy for all purposes. These provisions are illustrative only and shall not limit the Appraisal District in making determinations in any manner otherwise allowed by law.

Businesses applying for tax abatement with the County are advised that any agreement with the County applies only to taxes assessed by Jefferson County. Any abatement agreement with other taxing entities must be negotiated directly with such entities. In addition, each individual or business receiving an abatement retains the responsibility for annually applying to the Jefferson County Appraisal District for recognition and implementation of such abatement agreement.

Factors Considered By County In Considering Abatement Requests

Section IV

(a) **Standards For Tax Abatement.** The following non-exclusive factors may be considered in determining whether to grant tax abatements for an Eligible Facility or Project, and if so, the percentage of value to be abated and the duration of the tax abatement:

- (1) Existing improvements, if any;
- (2) Type and value of proposed improvements;
- (3) Productive life of proposed improvements;
- (4) Number of existing jobs to be retained by proposed improvements;
- (5) Number and types of new jobs to be created by proposed improvements;
- (6) The extent to which new jobs to be created will be filled by persons who are economically disadvantaged, including residents of a Reinvestment or Enterprise Zone;
- (7) The extent to which local labor, local subcontractors and local vendors and suppliers will be used in the construction phase of the project;
- (8) The amount of local taxes to be generated directly;
- (9) The amount the property tax base valuation will be increased during term of abatement and after abatement;
- (10) The amount of economic impact the Eligible Facility will provide to the local community;
- (11) The costs to be incurred by the County to provide facilities or services directly resulting from the new improvements;
- (12) The amount of ad valorem taxes to be paid to the County during the abatement period considering (a) the existing values; (b) the percentage of new value abated; (c) the abatement period; and (d) the value after expiration of the abatement period;
- (13) The population growth of the County projected to occur directly as a result of new improvements;
- (14) The types and values of public improvements, if any, to be made by the applicant seeking abatement;
- (15) Whether the proposed improvements compete with existing businesses to the detriment of the local economy;
- (16) The impact of the proposed project on the business opportunities of existing businesses;

(17) The attraction of other new businesses to the area as a result of the project;

(18) The overall compatibility with the zoning ordinances and comprehensive plan for the area;

(19) Whether the project is environmentally compatible with no negative impact on quality of life perceptions;

Each application for tax abatement shall be reviewed on its merits utilizing the factors provided above. After such review, abatement may be denied entirely or may be granted to the extent deemed appropriate after full evaluation.

(b) Local Employment. For purposes of evaluating Section III(h)(7): Local labor is defined as those laborers or skilled craftsmen who are residents and domiciliaries of the nine county region comprised of Jefferson, Orange, Hardin, Jasper, Newton, Liberty, Tyler and Chambers counties, as well as the Bolivar Peninsula area of Galveston County. Local vendors and suppliers shall include only those located or having a principal office in Jefferson County. Local Subcontractors shall include only those located or having a principal office in Jefferson County.

Each recipient of property tax abatement shall additionally agree to give preference and priority to local manufacturers, suppliers, vendors, contractors and labor, except where not reasonably possible to do so without significant added expense, substantial inconvenience, or sacrifice in operating efficiency. In any such exception, cases involving purchases over \$10,000.00, a justification for such purchase shall be included in the annual report. Each recipient shall further acknowledge that is a legal and moral obligation of persons receiving property tax abatement to favor local manufacturers, suppliers, contractors and labor, all other factors being equal. In the event of breach of the "buy-local" provision, the percentage of abatement shall be proportionately reduced in an amount equal to the amount the disqualified contract bears to the total construction cost for the project.

(c) Each recipient of a property tax abatement must also provide bidding information to local contractors, manufacturers and labor to allow them to have sufficient information and time to submit their bids and pre-bid meetings must be held between the owner and potential local bidders and suppliers of services and materials.

(d) Historically Underutilized Businesses/Disadvantaged Business Enterprises. The County will also strongly consider the extent to which the project will encourage and promote the utilization of Historically Underutilized Businesses (HUBs) (also known as Disadvantaged Business Enterprises, or DBEs) by the owner and general contractor by ensuring that qualified HUB vendors and contractors are given an opportunity to bid on all contracts.

1. A Historically Underutilized Business (HUB) is a business owned or controlled by Socially and Economically Disadvantaged Individuals as defined by all applicable federal or state laws and local policies, including Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Asian-Indian Americans, women and individuals with disabilities.

A HUB is one that is at least 51 percent owned or controlled by one or more women or Socially and Economically Disadvantaged Individuals who actively participate in the conduct of the business or, in the case of a publicly owned business, one in which at least 51 percent of the stock is controlled by one or more women or Socially and Economically Disadvantaged Individuals. A business that has been certified as a HUB/DBE by an agency of the federal government or the State of Texas is presumed to be a HUB/DBE for purposes of this policy. Only a HUB/DBE with its principal office in Jefferson, Hardin or Orange counties will be recognized as a HUB/DBE for purposes of this policy.

2. The County will require that each abatement contract between itself and any individual or entity seeking the abatement of ad valorem taxes contain a provision requiring the owner, on at least a quarterly basis, and at owner's cost, to allow the full examination by County or its designated representative(s) of all documents necessary for County to assure that best efforts have been used by owner to utilize local labor, subcontractors, vendors, suppliers and HUB's/DBE's. The County will also require that such contracts contain provisions binding the engineering/construction firms utilized as general contractors on the Project to the terms of the abatement contract.

(e) **Denial of Abatement.** Neither a reinvestment or enterprise zone nor abatement agreement shall be authorized if it is determined that:

- (1) There would be a substantial adverse affect on the provision of government service or tax base;
- (2) The applicant has insufficient financial capacity;
- (3) Planned or potential use of the property would constitute a substantial hazard to public safety, health or morals;
- (4) The project would cause a violation of state or federal laws; or
- (5) For any other reason deemed appropriate by the County including the pendency of litigation between the individual or entity requesting the creation of the reinvestment or enterprise zone and the County.

(f) **"Taxability"** From the execution of the abatement agreement to the end of the agreement period, taxes shall be payable as follows:

- (1) The value of ineligible property as provided in Section II(e) shall be fully taxable; and
- (2) The base year value of existing eligible property as determined each year shall be fully taxable.

EXHIBIT “A”

JEFFERSON COUNTY APPRAISAL DISTRICT
PROCEDURE FOR CALCULATING ABATEMENTS

Purpose

The purpose of this procedure is to clarify the method used in calculating the tax abatement under the attached Contract. This requires calculation of the current market Value, Base Year Value, and taxable Value as these terms are defined below. By deducting the abatable value from the current market Value the Taxable Value may be determined. However, in accordance with the Jefferson County Uniform Tax Abatement Policy, the Real Property Owner's Current Taxable Value shall not be less than the Base Year Value in order for a project to receive the full amount of abatement.

Calculation of "Current Market Value"

"Current Market Value" is determined by calculating for that Tax Year the market value of all industrial realty improvements of a property owner that comprise the "Base year Value" or each taxing entity.

Calculation Base Year Value"

"Base Year Value" for each taxing entity executing an abatement contract is the market value of all industrial realty improvements of a property owner located within that entity for the tax period defined as the "Base Year" less the abated value of all projects granted by that entity for the "Base year." "Base year" is defined as the calendar year in which the abatement contract is executed (signed).

Calculation of "Taxable Value"

"Taxable Value" for each taxing entity is determined by deducting from the appraised market value of all industrial realty improvements of a property owner the amount of any applicable abatements granted for that Tax Year.

Calculation of Value Potentially Eligible for Abatement

The following procedures are followed for each project for which a tax abatement contract has been executed and for each taxing entity granting the abatement.

1. The project base value, if applicable, is subtracted from the current year project value, and the percentage of abatement to be granted is then applied to the net amount determine the project value subject to abatement.
2. The Base Year Value is subtracted from the current Market Value. If the difference is greater than zero (0), then the remaining value is the value potentially eligible for abatement to the extent that it does not exceed the project value subject to abatement.

If the difference is zero (0) or less, then the project is not eligible for an abatement for that Tax Year.

Calculation of Abated Value

Each project that remains potentially eligible for abatement is then tested for each taxing entity granting the abatement on an individual basis in chronological order based on the date the contract was executed.

1. For the project being tested, the Base year Value plus the value potentially eligible for abatement for all other projects is subtracted from the Current Market Value. If the difference is greater than zero (0), then the remaining value is the value of the project to be abated to the extent that it does not exceed the project value subject to abatement for that year. If the difference is zero (0) or less, then the project is not eligible for an abatement for that Tax Year.

If a subsequent project being tested is determined to be ineligible for the full value potentially eligible for abatement calculated previously after performing the calculation stated above, then the test process must be redone for all prior projects using the actual value subject to abatement for the subsequent project to determine if there is any effect on the abatement for each project and each taxing entity for that Tax Year.
