# Application for Appraised Value Limitation on Qualified Property (Tax Code, Chapter 313, Subchapter B or C)

Economic Development  
and Analysis  
**Form 50-296-A**

**INSTRUCTIONS:** This application must be completed and filed with the school district. In order for an application to be processed, the governing body (school board) must elect to consider an application, but — by Comptroller rule — the school board may elect to consider the application only after the school district has received a completed application. Texas Tax Code, Section 313.025 requires that any completed application and any supplemental materials received by the school district must be forwarded within seven days to the Comptroller of Public Accounts.

If the school board elects to consider the application, the school district must:

- notify the Comptroller that the school board has elected to consider the application. This notice must include:
  - the date on which the school district received the application;
  - the date the school district determined that the application was complete;
  - the date the school board decided to consider the application; and
  - a request that the Comptroller prepare an economic impact analysis of the application;
- provide a copy of the notice to the appraisal district;
- must complete the sections of the application reserved for the school district and provide information required in the Comptroller rules located at 34 Texas Administrative Code (TAC) Section 9.1054; and
- forward the original hard copy of the completed application to the Comptroller in a three-ring binder with tabs, as indicated on page 9 of this application, separating each section of the documents, in addition to an electronic copy on CD. See 34 TAC Chapter 9, Subchapter F.

The governing body may, at its discretion, allow the applicant to supplement or amend the application after the filing date, subject to the restrictions in 34 TAC Chapter 9, Subchapter F.

When the Comptroller receives the notice and required information from the school district, the Comptroller will publish all submitted application materials on its website. The Comptroller is authorized to treat some application information as confidential and withhold it from publication on the Internet. To do so, however, the information must be segregated and comply with the other requirements set out in the Comptroller rules. For more information, see guidelines on Comptroller's website.

The Comptroller will independently determine whether the application has been completed according to the Comptroller's rules (34 TAC Chapter 9, Subchapter F). If the Comptroller finds the application is not complete, the Comptroller will request additional materials from the school district. Pursuant to 9.1053(a)(1)(C), requested information shall be provided within 20 days of the date of the request. When the Comptroller determines that the application is complete, it will send the school district a notice indicating so. The Comptroller will determine the eligibility of the project, issue a certificate for a limitation on appraised value to the school board regarding the application and prepare an economic impact evaluation by the 90th day after the Comptroller receives a complete application—as determined by the Comptroller.

The school board must approve or disapprove the application before the 151st day after the application review start date (the date the application is finally determined to be complete), unless an extension is granted. The Comptroller and school district are authorized to request additional information from the applicant that is reasonably necessary to issue a certificate, complete the economic impact evaluation or consider the application at any time during the application review period.

Please visit the Comptroller's website to find out more about the program at [www.texasahead.org/tax\\_programs/chapter313/](http://www.texasahead.org/tax_programs/chapter313/). ## TAB 4 DETAILED DESCRIPTION OF PROJECT

Provide a detailed description of the scope of the proposed project, including, at a minimum, the type and planned use of real and tangible personal property, the nature of the business, a timeline for property construction or installation, and any other relevant information.

Luminant Generation Company LLC (“Luminant”) is requesting an appraised value limitation agreement from Colorado Independent School District (“Colorado ISD”) for the Champion Creek Solar Energy Project (“Project”), a proposed solar photovoltaic energy facility in Mitchell County. The proposed Project will be constructed within Mitchell County Tax Abatement Reinvestment Zone No. 2014-01 that was established on October 27, 2014 and Mitchell County Tax Abatement Reinvestment Zone No. 2015-01 that was established on January 29, 2015. A map showing the location of the Project is included in TAB 11.

Luminant plans to develop up to 150MW AC of photovoltaic solar generation. The exact capacity and the specific technology components will be refined during the development and design phase. Please note that the map shows the potential locations of the solar grids within Colorado ISD boundaries, however, the final number and type is dependent upon ongoing negotiations with power purchasers, and Luminant’s ability to secure an appraised value limitation agreement from Colorado ISD.

The projected capital investment expenditures for the year 2016 includes 180 FTE’s during the construction period with a peak employment of 340 FTE’s and an average annual wage of \$50,000 per construction worker. For 2017, 230 FTE’s will be employed during the construction period with a peak employment of 380 FTE’s with an average annual wage of \$64,000 per construction worker. The anticipated completion date of the Project is Q4 2017 – Q1 2018.

Luminant requests a value limitation for all materials and equipment installed for the Project, including but not limited to, solar modules, mounting system, electrical collection system, combiner boxes, inverters, project substation, meteorological equipment, transmission facilities, and other ancillary equipment necessary to safely generate and transmit energy. All of the property for which Luminant is seeking a limitation of appraised value will be owned by the Applicant.

Additionally, Luminant plans to have an estimated total market value for all improvements at the end of the qualifying period of \$300M.

## TAB 5 DETERMINING FACTOR DOCUMENTATION

Documentation to assist in determining if limitation is a determining factor.

**Section 8, #1 Does the applicant currently own the land on which the proposed project will occur?**

Yes, the Applicant owns all land on which it intends to develop the Champion Creek Solar Energy Project. Please see Tab 9 for the specified land parcels.

**Section 8, #7 Are you submitting information to assist in the determination as to whether the limitation or appraised value is a determining factor in the applicant's decision to invest capital and construct the project in Texas?**

The Applicant requires this appraised value limitation in order to move forward with constructing the project in Texas. Without the appraised value limitation, the economics of the project become very poor making the project financially infeasible. Therefore, securing the appraised value limitation is a critical necessary step in order to establish a rate of return that is competitive with alternative investment opportunities.

**Section 8, #8 Has the applicant considered or is considering other locations not in Texas for the proposed project?**

The Applicant is a globally recognized firm that frequently evaluates energy investment opportunities throughout the United States. Therefore the economic return of the project is constantly being measured against alternative investment scenarios that may deliver similar or higher rates of return on invested capital. The energy industry is extremely competitive and many other states such as New Mexico, Arizona, California, and Colorado offer similar access to resources and markets, and provide competitive regulatory environments that must be carefully weighed and considered. The deployment of human resources and capital investment can only occur after it has been determined that the project presents itself as the most financially viable opportunity available and maximizes its value to shareholders.

**Re: Chapter 313 Job Waiver Request**

Dear Mr. Spencer,

Please consider this letter to be Luminant Generation Company LLC's formal request to waive the minimum new job creation requirement, as provided under Texas Tax Code 313.025(f-1).

Based upon our knowledge of staffing requirements, Luminant Generation Company LLC requests the job creation requirement under Chapter 313 of the Texas Tax Code be waived. In line with solar industry standards for job requirements, Luminant Generation Company LLC has committed to create three (3) new qualifying jobs.

Solar projects create a large number of full-time, temporary jobs during the construction phase, but require a small number of highly skilled technicians to operate the solar project once construction operations end and commercial operations have been established.

The permanent employees of a solar energy project maintain and service solar panels, mounting infrastructure, underground electrical connections, substations and other infrastructure described above, there also may be asset managers or technicians who supervise, monitor, and support solar project operations from offsite locations.

The waiver request herein is in line with the industry standards for the number of jobs specifically relegated to a solar generation facility of this size. This is evidenced by previously filed Chapter 313 applications by solar developers who similarly requested a waiver of the job requirements.

Sincerely,

Luminant Generation Company LLC

Don Montgomery  
Director of Community Relations
