South Plains Wind Energy, LLC (South Plains) is requesting an appraised value limitation from Floydada Independent School District (ISD) for the South Plains Wind Energy Project (the "Project"), a proposed wind powered electric generating facility in Floyd County. The proposed Floydada ISD Project (this application) will be constructed within Floyd County Wind Reinvestment Zone No. 1 established by Floyd County on March 11, 2013. A map showing the location of the project is included as Attachment 7.

The proposed addition to the Project is anticipated to increase the installed MWs located in Floydada ISD. The size of the wind turbines selected are now the 2.0 MW and 3.3 MW Vestas wind turbines, as compared to only using the 2.0 MW Vestas wind turbines as anticipated in the original application. Current plans are to install additional 72.2 MW, a net addition of 14 turbines located in Floydada ISD. Note the revised map attached shows a total of 74 wind turbines within Floydada ISD boundaries.

Size (MW)	2.0	2.0	3.3	3.3
Turbine count	60	40	12	22
Total MW's	120	80.0	39.6	72.6

The Applicant request a value limitation for all materials and equipment installed for the Project, including but not limited to, wind turbines, towers, foundations, pad mount transformers, roadways, buildings and offices, anemometer towers, collection system, electrical substations, transmission line and associated towers, and interconnection facilities.

Construction of the addition to the Project is anticipated to begin in the second quarter of 2015 with completion by the first quarter of 2016.

Mr. Gilbert Trevino, Superintendent
Floydada Independent School District

Floydada, TX 79235

Re: Chapter 313 Job Waiver Request

Dear Mr. Trevino,

South Plains Wind Energy, LLC (SPWE) requests that the Floydada Independent School District's Board of Trustees waive the job requirement provision as allowed by Section 313.025(f-1) of the tax code. This waiver would be based on the school district's board findings that the jobs creation requirement exceeds the industry standard for the number of employees reasonably necessary for the operation of the facility of the property owner that is described in the application.

South Plains Wind Energy, LLC requests that the Floydada Independent School District makes such a finding and waive the job creation requirement for 10 permanent jobs. In line with industry standards for job requirements, SPWE has committed to additionally create 1 total job for the project, all of which will be in Floydada ISD.

Wind projects create a large number of full and part-time, but temporary jobs during the construction phase of the project, but require a relatively small number of highly skilled technicians to operate and maintain the project after commercial operation commences.

The industry standard for employment is typically one full-time employee for approximately every 15 turbines. This number may vary depending on the operations and maintenance requirements of the turbines selected as well as the support and technical assistance offered by the turbine manufacturer. The permanent employees of a wind project maintain and service wind turbines, underground electrical connections, substations and other infrastructure associated with the safe and reliable operation of the project. In addition to the onsite employees, there may be managers or technicians who support the project from offsite locations.

Sincerely,

J. Weston Jackson
Partner

ADDENDUM

* All investments made through the qualifying time period are captured and listed on Schedule A1 (blue box) and incorporated into this schedule in the first row.
 ** Only investment made during deferral of the start of the limitation (after the end of qualifying time period but before the start of the Value Limitation Period) should be included in the "year prior to start of value limitation period" row(s). If the limitation starts at the end of the qualifying time period or the qualifying time period overlaps the limitation, no investment should be included on this line.
 *** If your qualifying time period will overlap your value limitation period, do not also include investment made during the qualifying time period in years 1 and/or 2 of the value limitation period, depending on the overlap. Only include investments/years that were not captured on Schedule A1.
 For All Columns: List amount invested each year, not cumulative totals. Only include investments in the remaining rows of Schedule A2 that were not captured on Schedule A1.
 Column A: This represents the total dollar amount of planned investment in tangible personal property. Only include estimates of investment for "replacement" property if the property is specifically described in the application. Only tangible personal property that is specifically described in the application can become qualified property.
 Column B: The total dollar amount of planned investment each year in buildings or nonremovable components of buildings.
 Column C: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that will not become qualified property include investment meeting the definition of 313.021(1) but not creating a new improvement as defined by TAC 8 1051. This is proposed property that functionally replaces existing property, is used to maintain, refurbish, renovate, modify or upgrade existing property, or is affixed to existing property—described in SECTION 13, question #5 of the application.
 Column D: Dollar value of other investment that may affect economic impact and total value. Examples of other investment that may result in qualified property are land or professional services.
