- Perforating with crash numbers

Note: The following services are provided under the [TPASS 966-A3 contract](#) and should not be submitted into the CCG Print Portal:

- Check and MICR encoding
- Custom carbonless printing

Graphic Related Printing

Production includes, but is not limited to, large format posters, foam board, gator board, white eraser boards, direct to board printing, silk screen printing, vinyl banners with grommets, 8 color eco solvent inks, large format laminations, retractable banner stands, indoor/outdoor displays, table throws and runners, pop up displays, folding displays, panels, indoor/outdoor window clings, partial or full vehicle wraps and Coroplast® yard signs with H stakes.

- Contractor has the ability to print high resolution 4-color text and/or graphics from electronic files suitable for mounting and/or laminating.
- Contractor has the ability to accept original materials requiring mounting and/or laminating including, but not limited to, maps, signs, posters, and photos.
- Contractor has the ability to produce high resolution 4-color graphics for materials which include vinyl (banners), cloth (table covers), and Coroplast® (outdoor signage). All banners and table covers shall have reinforced sewn edges or tear proof vinyl and if requested grommets. Contractor shall have the ability to provide, upon request, additional materials such as H-stakes, rope for banners, etc.

Heat Set Web Print Services

Production includes, but is not limited to, full color booklets, brochures, posters, and flyers.

- Contractor provides heat set web press print services (as opposed to, or in addition to, cold web or sheet fed) and bindery services including, but not limited to, saddle stitch and perfect binding.

Print on Demand Services

- Production includes, but is not limited to, publications, posters, stickers, decals.
- Unless otherwise specifies by Customer, the Contractor must complete print on demand orders within 48 hours. Time begins when the Contractor receives an order and stops when the order is delivered, mailed, or shipped. The Contractor has an emergency or rush procedures to be followed in the event it becomes necessary for the Contractor to work after hours, weekends or holidays to complete a job within 24 clock hours after receipt of originals. This procedure shall be exercised upon Customer request. The Contractor uses digital printing methods which allows for files to be quickly and economically printed in short run quantities.
