

METHODS AND ASSISTANCE PROGRAM 2011 REPORT

Rains County Appraisal District

Susan Combs Texas Comptroller of Public Accounts

January 23, 2012

Chief Appraiser
County Appraisal District Board of Directors
Superintendents
School District Boards of Trustees

Ladies and Gentlemen:

In 2009, the Texas Legislature enacted a new law that amended Tax Code Section 5.102. It requires the Comptroller of Public Accounts to review appraisal districts every two years. Called the Methods and Assistance Program (MAP), the reviews study the governance, taxpayer assistance, operating procedures and the appraisal standards, procedures and methodology of each appraisal district. The Property Tax Assistance Division (PTAD) performed the reviews for 125 appraisal districts in 2011.

Your appraisal district's MAP report is enclosed and includes: an assessment of how well your appraisal district performs; recommendations that will allow your appraisal district to comply with laws, rules, regulations, appraisal practices or operating best practices; results of surveys concerning the board of directors, the appraisal review board and information technology; taxpayer comment card feedback, if received; and board chairman comments. In certain cases, taxpayer and chief appraiser comments are also provided.

The recommendations must be implemented within one year from the release of this report per Tax Code Section 5.102. The MAP review team will return to the appraisal district in December 2012 to document the implementation. Recommendations that are not complete, or not substantially complete, by that time will result in notification to the Texas Department of Licensing and Regulation (TDLR). The appraisal district will have another year to complete the outstanding recommendations. Recommendations still incomplete after one year could result in sanctions against the chief appraiser and/or appraisal district staff who are licensed through TDLR. Your appraisal district should make every effort to complete all recommendations in a timely manner.

The Comptroller's office is committed to supporting the MAP review process and helping appraisal districts come into compliance with existing laws, rules and regulations. PTAD will work with appraisal districts to improve their operations and to comply with each recommendation. We want to thank the chief appraiser, board chairman and the staff of the appraisal district for their help in making this new program a success.

Rains County Appraisal District

This review is designed to determine whether appraisal districts are meeting minimum requirements for performing statutory and appraisal duties. This review is conducted in accordance with Tax Code Section 5.102(a), effective Jan. 1, 2010, and related Comptroller rule 9.301. The Comptroller is required by statute to review appraisal districts for governance; taxpayer assistance; operating procedures; and appraisal standards and methodology.

Details concerning the actual activities performed by the CAD can be found in the remainder of the report. Because of the diversity of land within Texas, some parts of the MAP may not be applicable to a county. If questions or a section of questions do not apply, such as when a county has no timber, the question or questions will be marked as “Not Applicable” or “NA” and the final score will not be negatively impacted by these questions.

Mandatory Requirements	PASS/FAIL
1. Does the appraisal district have up-to-date appraisal maps from which property may be located pursuant to Comptroller Rule 9.3002?	PASS
2. Do property inspections match appraisal district records?	PASS
3. Does the appraisal district have written procedures for appraisal?	PASS
4. Are values reproducible using the written procedures and appraisal records?	FAIL
5. Were all appraisal district documents requested by PTAD made available to the reviewer by the required date?	PASS

Rains CAD Review Questions and Answers

This review is conducted in accordance with Tax Code Section 5.102(a), effective Jan. 1, 2010, and related Comptroller rule 9.301. The Comptroller is required to review appraisal districts:

- governance;
- taxpayer assistance;
- operating procedures; and
- appraisal standards, procedures and methodology.

As part of the MAP review process, the CAD is required to submit, in advance of the review, electronic copies of procedures, policies, notices, manuals and related materials necessary for the completion of this review. Electronic copies may be submitted on DVDs, CDs or via the Property Tax Assistance Division's FTP Web site. Comptroller reviewers also collect related information at the time of the on-site review, compare appraisal district records to existing property and locate property using district maps. Each CAD is reviewed every other year. This report details the results of the review for the appraisal district named above.

Note: All bolded questions represent practices that exceed minimum requirements and will be scored as extra points in the total point scoring system.

GOVERNANCE

Appraisal district governance is evaluated in five subsections concerning CAD board of director's responsibilities: appointment of the chief appraiser; appointment of the appraisal review board; approval of the appraisal district budget; appointment of the taxpayer liaison and the agricultural appraisal advisory board; and oversight of contracts and appraisal district operations. The CAD board of directors is responsible for setting policy and hiring the chief appraiser. The chief appraiser establishes a preliminary budget and the CAD board approves the budget and maintains a review of the budget and its expenditure over the course of each fiscal year. The CAD board of directors appoints the appraisal review board to hear property disputes. The CAD board of directors appoints the taxpayer liaison and provides advice and consent to the appointment of the agricultural appraisal advisory board. The CAD board of directors also maintains oversight of contracts and operations.

This section contains nine questions that are not specifically required by law. They are considered "best practices" for appraisal districts, and are, in fact, used in many districts.

The specific questions are the first five questions under "Appointment of Chief Appraiser" and the first four questions under "Appointment of the Appraisal Review Board." If this report reflects "no" answers to these questions, it includes recommendations for implementing these "best practices."

In this final Methods and Assistance Program (MAP) report, the answers and recommendations concerning these nine questions have not been included in the calculation of the score. Your MAP score may be higher than the preliminary draft score, even though the report still contains the same recommendations. Appraisal districts are encouraged to comply with the recommendations associated with these nine questions.

Board of Directors Chair Interview Results

Meeting Notes for Board Chair Interview

Date of Interview: April 12, 2011

CAD Name: Rains CAD

Board Chair Name: Mr. Paul Foley

Interviewer Name: Lynn Hatter

Names of Others Present During Interview:
none

Items of Concern Noted by Board Chair:

Mr. Foley said the biggest obstacle the district will be facing in the next couple of years is probably the tightening of funds. The County Appraisal District (CAD) budget will need to be monitored closely.

Questions Asked by Board Chair:

none

Resources, Information, Training or Help Needed from Comptroller's Office as Stated by Board Chair:

The chairman said he has attended a couple of training sessions sponsored by the State Comptroller's Office and he believed the training was good. He does not know of any additional resources, information or training that would be beneficial to the Board. He would recommend the district look at any appraisal-related services or computer technology resources if these items were offered through a local or state-wide cooperative. He has seen successes in this type of arrangement involving cooperative agreements in a school district where he also serves on the board of directors. He is in favor of investigating anything to save money.

General Notes and Any Other Items of Interest that Should be Noted:

Mr. Foley believes the board chairman's most important functions are to communicate with the chief appraiser and to try to keep the district headed in the right direction. He said the lines of communication between the board and the chief appraiser are excellent. The chief appraiser and deputy chief appraiser call him whenever they need anything. The board of directors' (BOD) meetings usually last one and one half hours or less and are typically very productive. They always have a quorum

and have good participation by the members. The chief appraiser provides them with a copy of the agenda and related paperwork before the meeting so the board can review it before the meeting. He said the chief appraiser and her staff do a good job of bringing new ideas to the board. He discussed the board's written policies and procedures and believes they are up to date. They have made some recent updates to these policies and procedures. He believes he has the necessary resources to adequately perform the job of board chair. He knows of no obstacles that would prevent him from performing his duties. Mr. Foley said the board does receive a few complaints from the public but most are concerning appraisals or values and are referred to the Appraisal Review Board. In approximately six years on the board he said he does not recall receiving any complaints about the CAD staff. The chairman said they have not had a real problem finding individuals to serve on the ARB. The BOD members have good connections and have been successful in finding qualified individuals to serve. They prefer to have individuals from all areas of the county and prefer to have at least one member with commercial experience, at least one member with ranching experience and at least one member with business experience. Mr. Foley did not have any suggestions on ways to improve the current system of property tax administration. He said the chief appraiser networks well with other districts to receive or provide help when needed. The county has had only two tax increases in the last seven years and both of these involved bond elections for the construction of new schools. He is pleased with the BOD's decision to contract with True Automation computer software and Pictometry for mapping. He said the CAD staff handles challenges well and he is very proud of them and he is very proud of the appraisal district as a whole.

Appendix 5 Taxpayer Comment Card Results

As part of the MAP process, appraisal districts receiving a review were provided with comment cards to be used by appraisal district customers to report on the service provided to them. The Comptroller requested the cards be placed where property owners could access them easily. The pre-addressed, pre-paid comment cards could be filled out and dropped in the mail by customers without appraisal district assistance. The results of the comment cards received for this appraisal district are as follows.

Each appraisal district was rated on four categories and extra space was included for spontaneous comments. Comments that were included are also included here. The opinions expressed by the respondents reflect the respondent’s perceptions of the service they received.

Went above and beyond being helpful of my needs. Rates a gold star.

Everyone we have had business with was friendly, helpful and cheerful.

Always professional and very helpful - friendly.

Cindy was very helpful in taking care of our problem!

5 star performance!

Everyone very friendly and they all are vety helpful.

(Leave us alone)

Refuse to discuss property values. Tell you to appeal to ARB Board if you don’t like the values. Won't talk at all.

Comments (continued)

Very helpful in helping me solve my problems of late taxes.

The staff at RCAD is excellent. All are very knowledgeable + helpful. I for one, think they do a difficult job in a professional manner.
