BUYING OR SELLING OF CIGARETTES, E-CIGARETTES OR TOBACCO PRODUCTS TO MINORS

WHAT RETAILERS NEED TO KNOW

WHAT RETAILERS NEED TO KNOW ABOUT THE TEXAS LAW

RETAILERS AND EMPLOYEES

Texas law sets out stringent rules for buying and selling cigarettes, e-cigarettes and/or tobacco products at the retail level. Retail employees are subject to criminal prosecution for a Class C misdemeanor if with criminal negligence they sell cigarettes, e-cigarettes and/or tobacco products to a minor. Additionally, retailers can be fined up to \$1,000 or have their cigarette or tobacco products permits suspended. Permits can be revoked if retailers commit multiple offenses. Violation of any of the following laws is a Class C misdemeanor.

- Retailers and their employees cannot sell or give cigarettes, e-cigarettes or tobacco products or coupons for cigarettes, e-cigarettes or tobacco products to anyone under 18.
- Free samples of cigarettes, e-cigarettes or tobacco products cannot be given to anyone under the age of 18.
- Retailers must notify their employees of the consequences of violating the law within 72 hours of when the employee begins selling cigarettes, e-cigarettes or tobacco products. As proof that notice was given, employees must sign a statement affirming the law has been fully explained, they understand the law and agree to comply with the law. Retailers must have a signed statement for each employee, showing the employee's name, current address, Social Security number and signature date. Retailers must keep the signed statement for 60 days after the individual leaves employment and must present the form to law enforcement officers and state officials on demand.
- Retailers must conspicuously display warning signs to employees and customers about the cigarettes, e-cigarette and tobacco law and the penalties for violations of the law. The Comptroller, on request, will provide the warning sign without charge to any person who sells cigarettes, e-cigarettes, or tobacco products.
- In any business open to minors, cigarette, e-cigarette or tobacco vending machines cannot be placed in a manner that allows direct customer access.
- Customers cannot have direct access to cigarettes, e-cigarettes, or other tobacco products. (This provision does not apply to a business that holds a package store permit issued under the Alcoholic Beverage Code or that is not open at any time to people younger than 18, or to that part of a facility or business that is an enclosure designed to store cigars in a climate-controlled environment.)
- In addition to these Class C misdemeanors, other Texas laws also affect the buying and selling of cigarettes, e-cigarettes, and other tobacco products.

- Cigarettes cannot be sold in packages containing fewer than 20 cigarettes; the fine for this violation is \$100.
- Retailers and their employees must ask for identification from all customers under the age of 27 who try to buy cigarettes, e-cigarettes, or tobacco products.
- Retailers are responsible for training and supervising employees regarding the cigarette, e-cigarette and tobacco laws.
- To ensure compliance with the law, retailers are subject to random inspection by state and local law enforcement officials.

MINORS AND PARENTS

Texas law also applies to minors and their parents.

- Minors cannot buy, use or possess cigarettes, e-cigarettes or tobacco products. The only exceptions are that a minor may possess cigarettes, e-cigarettes or tobacco in the presence of an adult parent, guardian or spouse, or in the presence of an employer if possession of the product is required in the performance of his or her duties as an employee.
- Minors who violate the cigarette, e-cigarette and the tobacco law can be fined up to \$250 and required to attend a cigarette, e-cigarette and tobacco awareness program or participate in a cigarette, e-cigarette or tobacco-related community service. Parents of a minor convicted of a violation may be required to attend the cigarette, e-cigarette and tobacco awareness program with their child.
- A minor's drivers license can be suspended or denied if the minor is convicted of a violation of the cigarette, e-cigarette or tobacco law and does not attend a cigarette, e-cigarette or tobacco awareness program or perform a cigarette, e-cigarette or tobacco-related community service.
