

Economic Development Corporation Report

Fiscal Years 2006 and 2007

Susan Combs Texas Comptroller of Public Accounts

November 1, 2008

The Honorable Rick Perry
The Honorable David Dewhurst
The Honorable Thomas R. Craddick
Members of the 81st Legislature
Texas Economic Development Corporations

Fellow Texans:

I am pleased to present this biennial report on the activities of economic development corporations in Texas, as required by the Development Corporation Act of 1979, as amended.

Each year, development corporations are required to submit a one-page Economic Development Corporation Report to the Comptroller, either in hard copy or online. My office then compiles the two years of information into a biennial report that is presented to the Legislature on or before Nov. 1 of each even-numbered year.

City sales tax revenue dedicated to economic development increased to nearly \$477.7 million in fiscal 2006 and more than \$518.4 million in fiscal 2007. This sales tax continues to be the state's primary local revenue source for economic development.

The Comptroller's Local Government Assistance and Economic Analysis Division appreciates the cooperation of the staff and governing boards of the economic development corporations, as well as the city officials who were instrumental in gathering and reporting the required information. We commend them for their dedication to the important task of creating and maintaining a strong climate for economic development in their communities and for our state.

I am also pleased to inform you that this report is available on the Comptroller's Web site at www.texasahead.org/lga/edcr0007/edcr0007.pdf

I hope you will find this report helpful.

Sincerely,

Susan Combs

Executive Summary

In addition to continuing to administer the economic development sales tax programs, the Comptroller's office has implemented various economic development tools and resources to assist businesses, local governments and economic developers with expanding the Texas economy.

A new division, Local Government Assistance and Economic Development, was formed to assist local governments with economic development efforts in Texas. The staff participates in workshops on tax-related state and local economic development programs. In addition, a local government can receive an on-site assessment of operations to help improve their effectiveness. Staff also works with communities in identifying risks that could impact the resources of a local government.

In April 2008, the Comptroller launched TexasAhead and Texas EDGE, two online resources providing a wealth of data that support economic growth of communities throughout Texas. Texas Ahead (www.TexasAhead.org) is a one-stop center providing key statistics such as the forces affecting the Texas economy, including economic updates and forecasts. Texas EDGE is a Web-based data center for research on work force, transportation, education, tax rates, demographics and more.

In addition, the Comptroller created *Texas Rising*, a newsletter published six times a year to partner with local governments to solve important issues, many related to economic development. For example the July/August 2008 issue featured a story about "Joining Forces," discussing cities in the McAllen metropolitan area that combine economic development efforts to form the South Texas Border Partnership. Every issue includes an article on "TEXpansion" listing businesses and industries expanding their facilities throughout Texas. It is a sampling of recently announced expansions, tracked by the Office of the Governor, Economic Development and Tourism Division.

The agency is also publishing a series of reports on the economic regions of Texas. Each report focuses on the forces driving change and the factors that affect economic growth in the region, including economic

development, demographics, infrastructure, health care and education. To date, the series includes a state-wide report on economic opportunities and challenges, as well as regional reports on the High Plains, South Texas and Upper East Texas.

Through the agency's role as administrator of the economic development sales tax programs, the Legislature has charged the Comptroller's office with compiling this informative report of Economic Development Corporations each biennium.

History of 4A and 4B Economic Development Corporations

Since the adoption of the Development Corporation Act (the Act) in 1979, Texas law has allowed cities to form economic development corporations (EDCs) to attract businesses and create job opportunities. The Legislature amended the Act in 1989 and again in 1991 to allow eligible cities to adopt dedicated sales and use taxes to fund development projects. The authority to enact a local sales and use tax for economic development and the requirements for creating and operating EDCs are found in Vernon's Annotated Civil Statutes Article 5190.6, Sections 4A and 4B. For that reason, economic development corporations are commonly referred to as either 4A or 4B corporations. On April 1, 2009, the Act will be re-codified as Chapters 501-505, Local Government Code. At that time 4A and 4B corporations will be referred to as "Type-A" and "Type-B" corporations, respectively.

Reporting Requirement

In 1997, the Texas Legislature added Section 4C to the Development Corporation Act of 1979, requiring economic development corporations to report their financial activities to the Comptroller of Public Accounts. In each even-numbered year since 1998, the Comptroller's office has prepared a report for the Legislature summarizing the data submitted by EDCs during the preceding biennium. The statute requires all corporations operating under sections 4A and 4B of the Act to file an annual report with the Comptroller's office by Feb. 1 of each year, based on the previous fiscal year.

What is the 4A Sales Tax?

The 4A tax, is essentially limited to funding industrial and manufacturing facilities, research and development facilities, recycling facilities, distribution centers, small warehouse facilities, military facilities, job training, targeted infrastructure, regional or national headquarters facilities, business airport facilities and port-related facilities. Expenditures for targeted infrastructure must be related to an authorized activity under the act.

The statute also allows a 4A corporation to undertake most 4B-type projects without having to change from a 4A corporation to a 4B corporation. To do so, the city council must publish notice, hold a public hearing and obtain voter approval. At the end of fiscal 2007, 217 cities had adopted the 4A economic development sales taxes.

What is the 4B Sales Tax?

A 4B sales tax allows greater flexibility in expending revenues. Generally, allowable 4B expenditures include not only those available under 4A, but also projects that contribute to the quality of life in the community, such as park-related facilities, professional and amateur sports and athletic facilities, tourism and entertainment facilities, affordable housing or other improvements or facilities that promote new or expanded business enterprises that create or retain primary jobs. At the end of fiscal 2007, 435 cities had 4B economic development corporations.

Cities must seek voter approval to levy a 4A, 4B or both types of economic development sales taxes. The Act requires a city that adopts either or both of these funding sources to establish a development corporation to administer and oversee the expenditure of the sales tax proceeds. A board of directors, whose members are appointed by and serve at the pleasure of the city's governing body, oversees the development corporation. A city must deliver sales tax receipts derived from the sales tax for economic development to the EDC upon receipt of the funds from the Comptroller's office. The corporation's board of directors is responsible for all decisions regarding the use of these revenues and the projects undertaken. However, the city council retains final oversight authority and must approve of all programs and expenditures of the corporation.

To assist corporations in complying with the reporting requirement, the Comptroller provides information packets containing the required report form to all known 4A and 4B corporations in December of each year. The packets also are mailed to cities that held successful elections for the adoption of one or both sales taxes in the prior year.

The Act restricts the report form to a single page in length. Forms may be submitted to the Comptroller's office by mail, facsimile or completed online via a secure Web site with a unique log-in code for each corporation that is changed annually (**Appendix L**). For fiscal 2007, 254 of the 652 corporations filed their reports via the Internet. The form and the reporting history for each corporation may be viewed at: <<https://ecpa.cpa.state.tx.us/edcr/EdcrSearch.jsp>>.

In each even-numbered year, the Comptroller is required to prepare a biennial report and present it to the Legislature on or before Nov. 1 of that year. The first Comptroller report was presented to the Legislature in 1998 and contained fiscal 1997 data. Subsequent reports, submitted in each even-numbered year, contained data for the prior two fiscal years.

The 4A & 4B Sales Tax Data and Analysis

Six hundred thirty-four EDCs filed reports for fiscal 2006. Filings increased to 652 for fiscal 2007 (**Appendix A** and **Appendix B**). Corporation revenues increased over the prior biennium by more than 26 percent to nearly \$1.43 billion. Expenditures increased by more than 16 percent during the same period to more than \$1.25 billion. This report provides a statewide analysis of the EDC revenue, expenditures, capital assets economic development objectives and year-end fund balances for the two fiscal years. In addition, appendices arranged by corporation type and alphabetically by city name are included to provide the detailed data reported by each EDC.

Sources of Funds

In fiscal 2006 and 2007, sales tax was the major source of revenue for both types of economic development corporations (**Appendix F** and **Appendix G**). These receipts accounted for more than 70 percent of corporation revenues in fiscal 2007. Sales tax proceeds increased from fiscal 2006 to fiscal 2007 for both 4A and

EXHIBIT 1:

Source: Texas Comptroller of Public Accounts

4B corporations, swelling a combined \$41 million or 8.5 percent.

The second largest revenue source for all corporations was bond proceeds/loans obtained. This category decreased by more than \$5 million from fiscal 2006 to 2007, comprising less than 15 percent of corporation revenue in fiscal 2007.

When examined separately, 4A and 4B corporations differed in their trends of securing revenue from bond proceeds/loans obtained. While 4A corporations decreased their reliance on these funds by nearly \$32 million or more 65 percent from fiscal 2006 to fiscal 2007, 4B corporations increased funds obtained from debt

instruments by more than 40 percent or \$26.7 million during the same period.

Funds from all revenue sources for 4A and 4B corporations increase a combined \$51.2 million or 7.4 percent from fiscal 2006 to fiscal 2007. Separately, however, 4A corporations experienced a decline in revenue of nearly 6 percent or \$15.3 million, while 4B corporations saw revenues increase by \$66.5 million or more than 16 percent. (**Exhibit 1**).

Exhibit 2 illustrates the relative importance of various revenue sources for 4A corporations by city size. Sales taxes increased in importance from fiscal 2006 to fiscal 2007 in cities with populations of 5,001 to 15,000;

Corporation Fiscal Year

Most corporations reporting in fiscal 2007 adopted a fiscal year corresponding to that of their sponsoring city. A total of 558, or 86 percent, of the corporations listed Oct. 1 through Sept. 30 as the corporation's fiscal year. Thirty-five or 5 percent, listed the calendar year of Jan. 1 through Dec. 31 as their fiscal year and 19, or 3 percent, listed July 1 through June 30. Forty corporations adopted other fiscal years, accounting for the remaining 6 percent.

15,001 to 30,000 and 30,001 to 75,000. Reliance on sales tax revenues fell by more than 15 percent for cities with populations of 5,000 and fewer residents and fell by three percent for cities with populations of 75,000 and higher.

The second and third highest revenue sources for 4A corporations as a percentage of revenue were Bond Proceeds/Loans Obtained and Other Revenue. While there was no clear trend in the category Bond Proceeds/Loans Obtained, it is notable that corporations in cities with populations exceeding 75,000 reported no new debt in either fiscal 2006 or fiscal 2007. The percentage of Other Revenue increased for all city size categories except cities with populations of 30,001 to 75,000 residents. Corporations in these cities reported a 7 percent decline in this category.

Exhibit 3 shows 4B corporation revenue sources as a percentage of total revenue, again by city size. From fiscal 2006 to fiscal 2007, the share of total revenues attributable to sales taxes increased in cities with populations in the range of 0 to 5,000 and 30,001 to 75,000.

The percentage of 4B corporation revenues attributable to sales tax declined sharply among the other three city-size categories. The difference appears to be the direct result of changes in Bond Proceeds/Loans Obtained as an inverse relationship between this category and sales tax receipts is observed.

Expenditures

The 634 corporations reported expenditures of \$675.5 million in fiscal 2006 (**Appendix H** and **Exhibit 4**). Expenditures by the 652 corporations reporting in fiscal 2007 decreased by 14.4 percent to \$578.1 million despite a net increase of 18 corporations reporting that year (**Appendix I** and **Exhibit 4**).

All corporations combined and 4A and 4B corporations separately reported increases in expenditures for Personnel, Administration, Marketing and Promotion, Capital Costs, Payments to Taxing Units and Other. Likewise, 4A and 4B corporations reduced expenditures for Direct Business Incentives and Debt Service. Negligible changes were noted in outlays for Job Training and Affordable Housing.

It is often more useful to examine expenditure categories as a percentage of total expenditures to more easily observe which categories are increasing or decreasing in relation to one another. As presented in **Exhibit 5**, 4A corporations expend a much larger percentage of their total expenditures on Direct Business Incentives than 4B corporations. In fiscal 2006, the difference was nearly 24 percent. On the other hand, 4B corporations

2007 Legislative Changes

There were few changes to the Development Corporation Act of 1979 during the 2007 Legislature. Three bills were adopted affecting the operations of economic development corporations.

- To promote the use of public transportation, **SB 1089** authorized 4A and 4B corporations to expend sales tax proceeds on commuter rail, light rail or motorbuses.
- **SB 1523** waived the public hearing requirement for 4B corporations located in cities of fewer than 20,000 residents when the corporation pursues projects authorized for 4A corporations.
- **HB 3440** authorized 4B corporations to fund certain additional facilities and infrastructure located on or adjacent to an airport facility.

For more information about the authority and responsibilities of 4A and 4B corporations, refer to the Comptroller's office publication #96-302, *Economic Development Sales Tax*, which is available at <www.window.state.tx.us/taxinfo/taxpubs/tx96_302.pdf>. Or contact the Comptroller's office Local Government Assistance and Economic Analysis Division at (512) 463-4679, ext. 3-4679.

spend a significantly larger percentage of expenditures on Capital Costs compared to 4A corporations. The margin in this category favored 4B corporations by 17.6 percent in fiscal 2006, narrowing to 9 percent in fiscal 2007.

Debt service was a significant expenditure type for both 4A and 4B corporations. In both fiscal years, 4A corporations allocated about one-fifth of expenditures to debt service, while 4B corporations appropriated about one-fourth of outlays to this category.

State law caps Marketing and Promotional expenditures by both 4A and 4B corporations at 10 percent of a corporation's annual revenues, except under certain circumstances. The limit is 25 percent of revenues for a 4A city:

- that has municipal limits including two counties;

- that has less than 24,250 residents, according to the 1990 federal census; and
- that is located within 10 miles of a federal military reservation.

The reports for fiscal 2006 indicate that 11 of the 215 4A corporations spent more than 10 percent of their revenues for Marketing and Promotion. Three of the 11 corporations exceeded 20 percent. Of the 419 4B corporations reporting in fiscal 2006, 41 exceeded the 10 percent threshold and 23 exceeded 20 percent of revenues (**Appendix J**).

In fiscal 2007, 18 of the 217 4A corporations reported expenses over the 10 percent cap, with only six exceeding 20 percent. For the 435 4B corporations reporting that year, 36 exceeded the 10 percent limit, with 16 exceeding 20 percent.

While most 4A and 4B corporations appear to be in compliance with the limitation on marketing and promotional expenses, the act does not require a corporation to prove that it qualifies for an exception to the statute. Nor does the law provide any penalty for those that exceed the limit. It also should be noted that some corporations exceeding the statutory limit may have carried forward unused revenues budgeted for marketing and promotion from previous fiscal years. Attorney General Opinion GA-0086 states that "a corporation that chooses to spend revenues for promotional purposes may spend up to 10 percent of its annual revenues for that purpose or may set all or some of these funds aside in a promotional purposes account. A corporation that set aside revenues in such an account could spend those past year revenues along with the allowable percentage of its current annual revenues for promotional purposes without violating the cap."

The percentage of funds expended by 4A and 4B corporations by category varied significantly among cities of different sizes in fiscal 2006 and fiscal 2007 (**Exhibits 6 and 7**).

Both 4A and 4B corporations outlay a relatively lower percentage of expenditures for Personnel and Administration as city size increases. This is likely the result of the increased administrative efficiency of the larger organizations. Overall, 4B corporations seem to be more administratively efficient than 4A corporations, as Personnel and Administrative expenses for 4B corporations are lower in every city size category except

EXHIBIT 6

Spending Categories as a Percentage of Total Expenditures: 4A Corporations by City Size*
Fiscal 2006 and 2007

cities with populations of 15,001 to 30,000. In this city size category, the percentage expended for Personnel and Administration by 4B cities was similar to that of 4A cities.

The percentage spent on Direct Business Incentives is generally higher for 4A corporations than for 4B corporations. In fact, only in the size category of cities with fewer than 5,000 residents were expenditure percentages similar, at about 14 percent. Otherwise, 4A corporation expenditures were at or above 20 percent for the other city size categories while 4B corporation expenditures for Direct Business Incentives declined as city population increased.

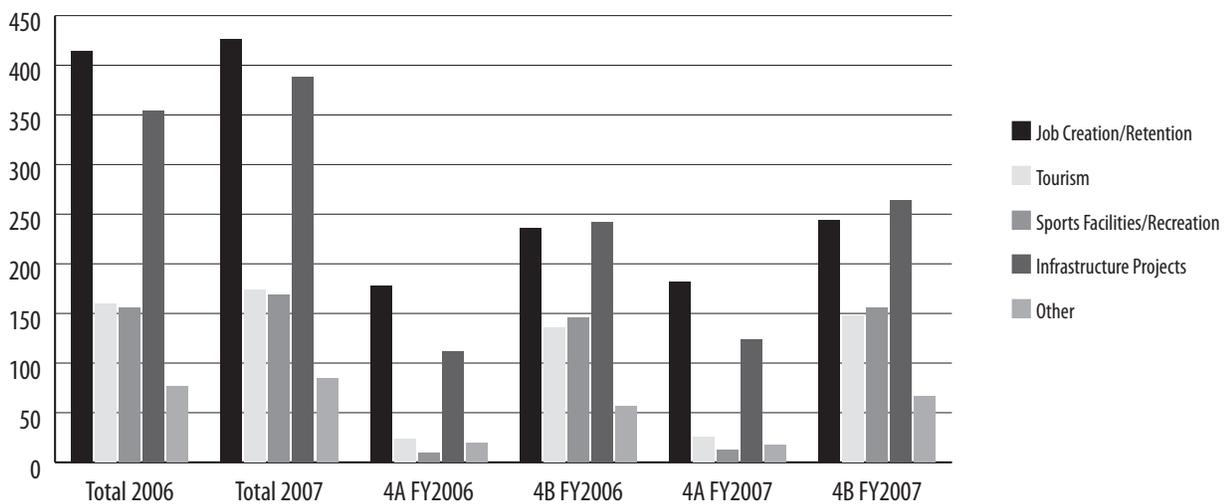

Capital Cost expenditures as a percentage of total expenditures by 4A corporations tended to decline as city size increased. The exception was corporations in cities with populations under 5,000 and more than 75,000 residents. In fiscal 2006, corporations in cities with

more than 75,000 residents spent nearly half of outlays for Capital Costs while cities with 5,000 or fewer residents spent only 24 percent in this category. In fiscal 2007 the trend was reversed, with corporations in cities with 5,000 or fewer residents expending nearly 45 percent of outlays on Capital Costs, while cities with 75,000 or more residents appropriated only 25 percent of expenditures in that category.

Primary Economic Development Objectives

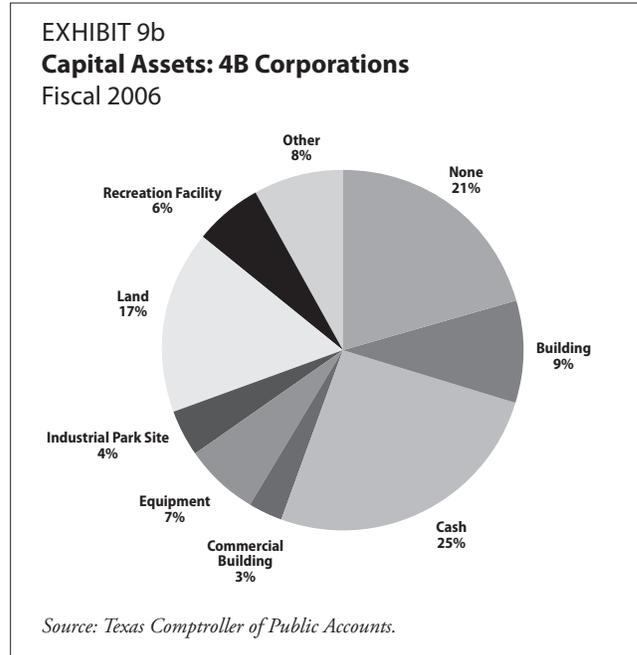

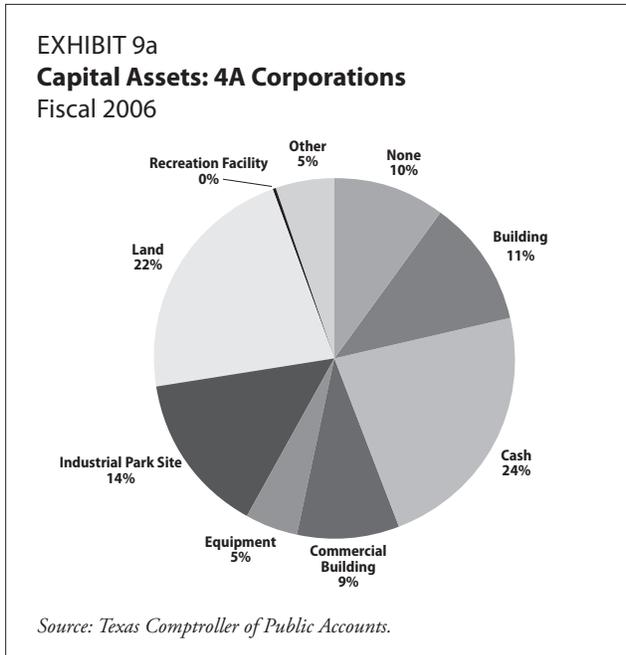

In fiscal 2006 and 2007, most corporations listed more than one primary economic development objective (**Appendix C**). Job Creation/Job Retention was the preferred activity by both 4A and 4B corporations, followed closely by Infrastructure Projects. Sports Facilities/Recreation and Tourism were popular third and fourth choices for 4B corporations, while relatively few 4A corporations selected these categories. (**Exhibit 8**).

EXHIBIT 8
Fiscal 2006 and 2007 Economic Development Objectives

Objective	Total 2006	Total 2007	4A FY2006	4B FY2006	4A FY2007	4B FY2007

Types of Capital Assets

Capital assets for fiscal 2006 and 2007 are found in **Appendix D** and **Appendix E**. Of the 634 corporations, 443 reported capital assets in fiscal 2006. The most common capital asset was cash, reported by 284 of the corporations. Land, including both acreage and lots, was second, reported by 216 corporations. Other capital assets included buildings (114), industrial parks/sites (92), “other” (79), equipment (69), commercial buildings (63) and recreational facilities (43). The total number of reported assets exceeded the total number of corporations because many reported owning more than one asset type. There was a significant difference between the percentage of 4A and 4B corporations reporting capital assets. In fiscal 2006, 169 or 79 percent of the 215 4A corporations reported owning capital assets, compared to 278 or 66 percent of the 419 4B corporations.

Exhibits 9a and **9b** show the assets owned by the two types of corporations in fiscal 2006. There are, however, differences between the assets owned by 4A and 4B corporations. The largest disparity is found in categories pertaining to the ownership of real property. Ownership of Industrial Parks/Sites was much more common among 4A corporations, with 14 percent reporting ownership of this asset class compared to only 4 percent for 4B corporations. 4A corporations

also had a greater percentage in the categories of Land, Commercial Buildings and Building than 4B corporations. Twenty-one percent of 4B corporations reported no assets, as did 10 percent of 4A corporations. This disparity could be the result of some corporations expending funds for assets that are transferred to the city upon completion, such as park-related projects. In those cases, the capital asset would no longer belong to the corporation, but would become a capital asset of the city.

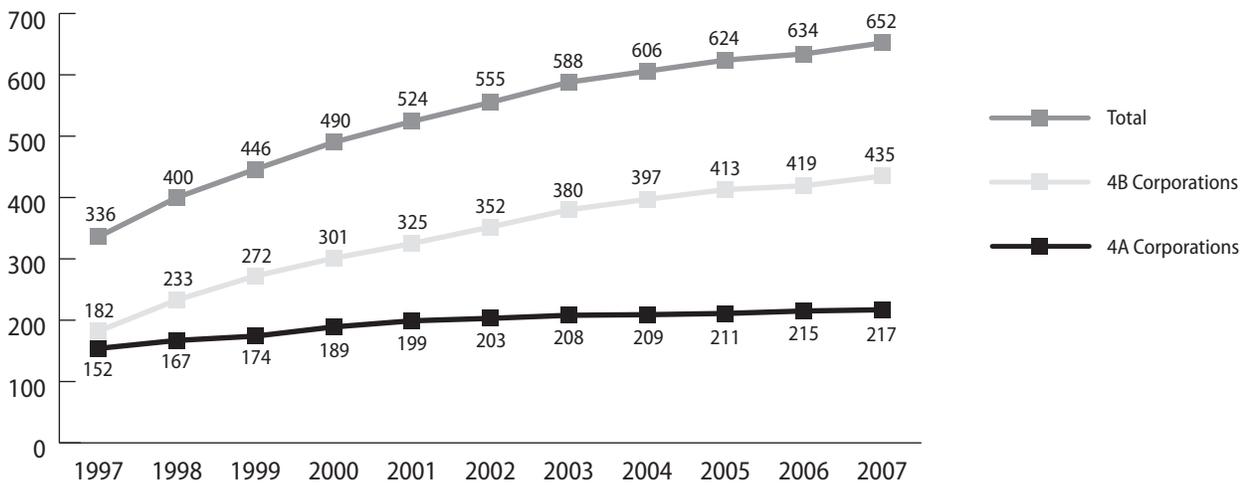

Corporation Fund Balances

Beginning in fiscal 2006, the Comptroller requested that each corporation report their year-end unrestricted fund balance or unrestricted retained earnings. (**Appendix K**). These are the funds that have not been formally designated by the board of directors for a project cost or other expenditure during the fiscal year. Fund balances may carry over from year to year.

In fiscal 2006, 207 4A corporations reported fund balances totaling \$342.6 million. The total increased to \$405.5 million for the 201 4A corporations reporting fund balances in fiscal 2007.

There were 396 4B corporations reporting fund balances in fiscal 2006. Together they reported fund

EXHIBIT 10
Number of Economic Development Corporations

Source: Texas Comptroller of Public Accounts.

balances of more than \$308.6 million. For fiscal 2007, 393 4B corporations recorded year-end balances totaling \$476.9 million.

Combined, 4A and 4B corporations reported fund balances totaling nearly \$882.4 million at the end of fiscal 2007.

Growth of the Sales Tax for Economic Development

As many Texas cities reach the two percent local sales tax cap, growth in the number of new 4A and 4B corporations has slowed. **Exhibit 10** shows how the number of corporations has changed since 1997.

Between fiscal 2001 and 2003 the total number of corporations grew at a rate of 32 per year. From fiscal 2003 to fiscal 2005, the rate of increase fell to 18 new corporations per year. In 2006 only 10 new corporations were created. The number of new corporations rebounded in fiscal 2007 to 18.

In recent years, most of the growth in new corporations has been driven by increases in 4B corporations. From fiscal 2003 to fiscal 2007, a net of only nine new

4A corporations have been created, while the number of 4B corporations has increased by 64.

Another factor affecting the rate of increase in the number of 4A and 4B corporations is competition from other types of sales tax. Sales tax ballot initiatives may take place up to twice per year if initiated by either a city council or upon a successful petition by registered voters in a community. The result may be the abolition of any local sales tax to reduce the local tax burden or to impose a different type of local sales taxes.

For example, in fiscal 2006 voters in Dripping Springs and Westlake abolished their 4A sales tax. On the same ballot, Westlake imposed a sales tax for property tax relief. In fiscal 2007, the city of Grand Prairie abolished the 4B sales tax and adopted both a street maintenance and a sports and community venue sales tax. The same year, Sunset abolished a 4B sales tax to reduce the local tax burden.

By the end of fiscal 2007, 346 Texas cities had adopted the sales tax for property tax relief, and 159 cities had adopted the sales tax for street maintenance and repair.

Form 01-138 (Back)(Rev.4-07/11)

**COMPTROLLER OF PUBLIC ACCOUNTS
ECONOMIC DEVELOPMENT CORPORATION REPORT**

As required by Vernon's Ann. Civ. St. Art. 5190.6 §4C, **please complete and return this form to the Comptroller's office by February 1, 2008.** Your reply must be postmarked no later than February 1, 2008. Please use the enclosed self-addressed envelope.

If filing online, please go to <http://ecpa.cpa.state.tx.us/edcr/EdcrSearch.jsp> and enter your eight digit temporary access ID number which is printed at the top of this form, or return the form in the postage paid envelope provided. You may also complete and fax this form to (512) 475-0664 no later than the due date. Failure to file a completed report form by February 1, 2008 may result in an administrative penalty.

INSTRUCTIONS

1. Please provide the begin and end date of the development corporation's fiscal year for this reporting period. (e.g., 10/01/2006 to 09/30/2007)
2. Please check the corporation's primary economic development objective(s). Check all of those that apply.
3. If the corporation uses governmental or not-for-profit fund accounting, enter the unrestricted fund balance. If the corporation uses any other method of accounting, use the unrestricted retained earnings or the equivalent. Unrestricted fund balance and retained earnings are fund balances or retained earnings that have not been formally designated by the board of directors for special purposes, such as future capital projects.
4. List the total revenues for the corporation for the preceding fiscal year. Exclude in-kind contributions. List only revenues actually received by the corporation.
5. List the total expenditures during the preceding fiscal year in each of the following categories. If categories overlap, place the dollar amount only in the category that most closely applies. Use the following definitions to guide you in listing the expenditures. Include the total expenditures at the bottom of the listing.

Personnel-Include expenses for salaries, wages, and related employee benefits provided for all persons employed by the corporation. Employee benefits include employer contributions to the retirement system, insurance, sick leave, severance pay, and similar benefits.

Administration-Include expenditures by the corporation including contracts for services, car expenses, rent, supplies, employee training, and utilities.

Marketing and Promotion-Include any costs used to promote and market the economic development area. (i.e., brochures, advertising, direct mail, printing expenses, trade show expenses.)

Direct Business Incentives-Include grants, cash, land, sales tax rebates, loans, job training, infrastructure development, loan guarantees, rent subsidies, and other incentives.

Job Training-Include payments for job training offered through a business enterprise.

Debt Service-Include interest and principal payments on debts of the corporation.

Capital Costs-Include outlays that result in the acquisition of or additions to fixed assets owned by the corporation and not provided as a direct business incentive. Examples may include park, recreational and entertainment facilities.

Affordable Housing-Include any expenditures related to the acquisition or support of affordable housing.

Payments to Taxing Units-Include any payments to municipalities, counties, school districts, or other taxing units.

Other-If other expenditures are included, please list the expenditures in the space provided.

6. List the corporation's capital assets excluding office equipment. Include land, buildings, industrial parks, recreation/sports facilities, and other facilities.

You have certain rights under Chapters 552 and 559, Government Code, to review, request, and correct information we have on file about you. You may contact us by mail at Texas Comptroller of Public Accounts, Local Government Assistance, Post Office Box 13528, Austin, Texas, 78711-3528 or by phone toll-free at (800) 531-5441, ext. 3-4679. The local number in Austin is (512) 463-4679.
